

# Training Overview

*\* Design Principles, Applied Optics, Electronics for non-electrical engineers, System Architecture, Soft skills for technology professionals, ...*

# Calendar 2016

*in cooperation with our partner The High Tech Institute ([www.hightechinstitute.nl](http://www.hightechinstitute.nl))*

## **Advanced feedforward control**

14 - 16 November 2016

## **Advanced mechatronic system design**

to be planned

## **Advanced motion control**

7 - 11 November 2016

## **Actuation and power electronics**

11 - 13 October 2016

## **Dynamics and modelling**

12 - 14 December 2016

## **Experimental techniques in mechatronics**

28 - 30 June 2016

## **Machine vision for mechatronic systems**

23 - 24 June 2016

## **Mechatronics system design - part 1**

4 - 8 April 2016

6 - 10 June 2016 (*location: Delft*)

10 - 14 October 2016

## **Mechatronics system design - part 2**

11 - 15 April 2016

31 October - 4 November 2016

## **Metrology and calibration of mechatronic systems**

22 - 24 November 2016

## **Motion control tuning**

15 - 22 June 2016

30 November - 7 December 2016

## **Summer school Opto-mechatronics**

4 - 8 July 2016

## **Thermal effects in mechatronic systems**

21 - 23 March 2016
